TESTIMONIAL

RS Consult BG worked on the design, the implementation, and the publishing of a new University website for SHSU (Spartan Health Science University) during year 2012. The project was successfully launched within scope, time, and budget. The success of the project marked the turnaround as the new face for the University. It allowed for improved services which was impossible with the older technology and prior the contracting of the work to RS Consulting BG.

We are grateful for the company continuous support and we are looking forward to work on other collaborative projects with them.
