

Recommendation Letter

I would like to recommend RS Consult BG, who are consulting us in the area of Data analytics and Reporting automation. During 2017 - 2018 our company had RSC helping us sort our financial data in a data warehouse and generate financial reports for the needs of our forwarding company Bulgarian Cargo Express. We were extremely pleased with the high-quality service we received.

On the project we worked together, RSC did the transformation of the data from our ERP to the data warehouse. They helped us with the account mappings and creating the reports needed for auditing. Everything was successfully automated using the IBM tools.

I would like to ask you to consider RSC for your Data Analytics and BI solution provider. I strongly recommend the services of the company and I am looking forward to working with them again in future data analytics projects.

July 5th, 2018

Sincerely,

Kalina Ivanova

Chief Accountant

Bulgarian Cargo Express AD
